## (54) MAILING ADDRESS-PRINTING SYSTEM

## (57)Abstract:

**PROBLEM TO BE SOLVED:** To provide a mailing address-printing system intended for rational delivery of mail and reduction of postage with the utilization of a new mail-processing system.

**SOLUTION:** The mailing address-printing system is provided with a memory apparatus 1 having a customer data file 6 storing for every customer of many customers names, addresses, postcodes, etc., of the customers, a printer 2 which carries out a printing process to mail or sheets attached to the mail, and a control means 4 which reads out data of a designated customer from the customer data file in accordance with an input operation and makes the printer 2 print a making address. A customer bar code data-storing part 6a is set in the system to store data for generating customer bar codes to the customer data file. The control means 4 reads out data of the customer designated through the input operation from the customer bar code data-storing part 6a, generates the customer bar code and makes the printer 2 print the customer bar code together with the making address.
